The President shall prepare and submit to the Board of Directors, for their acceptance, a full and complete quarterly report or statement of all monies received and expended and of the existing condition of the funds and assets of the Authority for each quarter.

(**Reference.** Board of Directors Bylaws, 1986.)

(**Amended.** Board of Director's Minutes September 19, 2003)

### **Section 4: Committee Minutes**

Each committee shall keep minutes at its meetings and report them to the Board of Directors at the next subsequent meeting of the Board.

(**Reference.** Board of Directors Bylaws, 1986.)

### **Section 5: Cash Fund Investment Policy**

**Title:** Cash Fund Investment Policy

**Purpose:** To ensure the monies of the Seed Capital Investment Fund are invested in Certificates of Deposit or the State Treasury Money Management Trust Fund yielding the prevailing market rate of interest.

**Scope:** The scope of this administrative process is limited to the Seed Capital Investment Fund

**Responsibility:** Finance Program Manager

**Procedure:** Upon the maturity date of any Certificate of Deposit held by the Authority the Finance Program Manager (FPM) shall seek out the current prevailing market rate of interest. This shall be accomplished by establishing comparable market interest rates on one-year Certificates of Deposit offered by banks in the state of Arkansas in an amount not to exceed \$ 100,000 and by comparing the interest rate offered by the Money Management Trust Fund.

The first step requires the FPM to contact the existing geographically dispersed banks that the Authority has a Certificate of Deposit investment with, and that are currently maturing, to request a current yield quotes for one-year jumbo Certificates of Deposit.

### Board of Directors Policy Manual

The next step involves requesting quotes for one-year jumbo Certificates of Deposit from at least four additional geographically dispersed banks. From this random selection of quotes the staff takes a simple average yield and uses this as the proxy current market rate of interest. All quotes shall be documented, in writing, by the FPM on the enclosed sample Certificate of Deposit bid sheet form and kept in a readily accessible folder.

Upon comparison of the currently offered quotes to the proxy current market yield the FPM will reinvest certificates of deposit held at existing banks in an amount of \$ 95,000, for a time period not to exceed 366 days, if the quoted yield is within 50 basis points of the proxy current market interest rate.

If the quoted yield is outside the 50 basis point spread of the proxy current market interest rate the FPM will start reinvesting funds in amounts of \$ 95,000 from the highest yield offered downward in terms not to exceed 366 days or the FPM may choose to reinvest those funds into the Money Management Trust Fund.

Upon completion of the bidding process the FPM shall forward the completed Certificate of Deposit bid sheet to the Vice President Finance and the Fiscal Officer.

**Definitions:** **Money Management Trust Fund:** was designed to afford state agencies a vehicle for enhancing investment opportunities and earnings of idle cash funds. The Fund's objectives are safety, liquidity, and return on investment. The Fund has several advantages such as economies of scale, collateralization, and funds availability and transferability.

**Certificate of deposit (CD):** also called a time deposit, this is a certificate issued by a bank or thrift that indicates a specified sum of money has been deposited. A CD bears a maturity date and a specified interest rate, and can be issued in any denomination. The duration can be up to five years.

**Basis point:** in the fixed income market, the smallest measure used for quoting yields is a basis point. Each percentage point of yield in fixed income securities equals 100 basis points. Basis points also are used for interest rates. An interest rate of 5% is 50 basis points greater than an interest rate of 4.5%.
